

Buddy Flaps

Easy installation method:

- Print and cut out the guide (below)
or use Buddy Flaps as a reference
- Remove the wheels from the bike
- Put painters tape on fenders where holes will go
- Find and mark the center of the fender
(Search "Honjo Fender installation" by SimWorks)
- Register guide with bottom of fender
- Transfer marks A. and B. to the fender
- Confirm registration marks are even
- Carefully drill two holes the size of your zip ties through the fender
Be careful not to drill your hand!
- Attach Buddy Flaps with small cable ties. Use either:
two zip ties around the edges
one across the center
or two nuts or bolts
- Cut, file, or melt the ends of cable ties flush
